

The nature and neuroscience of time

WTI INSPIRING SPEAKER SERIES

THR, OCT 17, 2024 | 4:00 - 5:15 PM

100 COLLEGE ST | FL 11 WORKSHOP, RM 1116

Dean Buonomano

Professor, Departments of Neurobiology and Psychology, UCLA

Buonomano is a computational and experimental neuroscientist interested in the neural basis of temporal processing, neural dynamics, and how neocortical circuits learn to autonomously perform neurocomputations.
