

The science of connections: Bridging chromatin, synaptic plasticity, and neurophysiology

WTI INSPIRING SPEAKER SERIES

THURSDAY, OCTOBER 31, 2024 | 4:00 - 5:15 PM

100 COLLEGE ST | FL 11 WORKSHOP, RM 1116

Jennifer E. Phillips-Cremins

Associate Professor

Department of Genetics and of Bioengineering

Epigenetics Institute

University of Pennsylvania

Phillips-Cremins is a molecular and cellular neurobiologist interested in chromatin-synapse communication in long-term memory storage and how this goes awry in intractable neurological disorders.
