with Paul North

Peter Cole is a poet and translator whose work takes root where cultures meet and tradition extends itself in vital fashion. Praised for his “prosodic mastery” and “keen moral intelligence” (The American Poet), and for the “rigor, vigor, joy, and wit” of his poetry (Joshua Cohen, The Paris Review), Cole has created a ramifying vision of connectedness, one that defies conventional distinctions between old and new, foreign and familiar, translation and original.
