

From Art to Science: Advanced Cryocooling Technology for Biomolecular Cryocrystallography

Rob Thorne will discuss how MiTeGen's NANUQ™ Hyperquenching Cryocooler can help reduce ice formation and mosaicity, use of cryoprotectant, and improve overall crystal diffraction.

Cookies and Coffee will be served.

Thursday March 7 at 12:30pm
Room B201 / Giarman Room, Sterling Hall of Medicine (SHM)
Yale Medical School Campus.
