II. DESCRIPTION OF REQUIRED SERVICES

The SI has a requirement for technical support services at the NMNH Biorepository located at the Museum Support Center in Suitland, Maryland. A Labor-Hour contract will be awarded. The award will be for 8 months.

III. EVALUATION

(NOTE: If selection for award will be based on price alone, be sure to cite that consideration here. If options years are desired be sure to request multiple year pricing. When price alone will be the basis for award then the factors below should be deleted. When the award will be based on best value then you must list your evaluation factors such as those on the following list. Another factor could be quality of sample provided if you want to receive samples. Whatever factors you use, the individuals/companies invited to submit quotes must each know how you intend to evaluate their capabilities to provide the services required.)

The SI plans to award based on best value. The SI plans to award without discussions, however, does reserve the right to conduct discussions if later determined by the Contracting Officer to be necessary.

All of the following factors are of equal importance. Evaluation factors are:

A. Relevant Experience/Past Performance
1. Relevant experience is that obtained within the past 5 years providing or performing services of similar size, scope, complexity and type of client that indicates your suitability for this project as described in the statement of work.
   a. Include a brief summary of your training and experience working with museum collections.
   b. Include a brief summary of your training and experience working with frozen tissue samples and/or DNA.
   c. Include a brief summary of your experience working as an independent contractor or self-employed individual.

2. Past Performance should be indicated by a list of current or previous contracts or positions with names of points of contact and their current telephone numbers and e-mail addresses who can answer specific questions on quality, workmanship and scheduling. Provide contract periods of performance dates, dollar value, and brief description of the work performed. Include at least two references.

B. Résumés (or curriculum vitae) of potential contractor assignees is requested, which should demonstrate their relevant experience related to the tasks outlined in the statement of work.

C. Price. Provide a firm fixed price for the hourly rate. This price shall include all costs.

IV. INSURANCE REQUIREMENTS

Prospective contractors are required to have General Liability Insurance for $1,000,000 and auto insurance. The SI must be listed as additional insured for the General Liability insurance. Proof of insurance must be submitted with quotes. Independent contractors under this RFQ may request to purchase insurance through the Smithsonian Institution Commercial General Liability for contractors if selected for an award. If you would like to purchase your insurance through the Smithsonian Institution policy, please indicate this information on your quote.

V. DUNS NUMBER

A DUNS number is a unique nine digit identification number available for each physical location of your business and is needed to register in the System for Award Management (SAM), formerly the Central Contractor Registration (CCR) system (see Section VI of this RFQ). DUNS numbers are provided through Dun and Bradstreet (D&B) at no charge when you contact D&B via toll free telephone call to 1-866-705-5711, or on the Internet at http://fedgov.dnb.com/webform. Non-U.S. (international) vendors may also contact D&B via email at help@dnb.com. Indicate that you are requesting a DUNS number to assist with eligibility for U.S. Government contracts. New DUNS numbers for U.S. vendors will be active and available for SAM registration within 1-2 business days of request; international vendors DUNS will be active and available normally within 2-5 days of request.

VI. SYSTEM FOR AWARD MANAGEMENT (SAM) REGISTRATION (formerly CCR)
It is a requirement that current and prospective recipients of contract and purchase orders awarded by the SI must complete registration and maintain an active record in the System for Award Management (SAM). The SAM requires a one-time business registration, with annual updates, and allows vendors to control the accuracy of the business information they enter. The financial data you enter, which includes the electronic funds transfer (EFT) data collected by SAM, will assist the SI in paying your invoices and complying with the Federal Debt Collection Improvement Act of 1996. You may complete or update your information in SAM online at http://sam.gov. Questions regarding the process may be directed to the Federal Service Desk online at www.fsd.gov or via toll free call to 1-888-606-8220. There is no charge for registering in SAM.

For vendors who were registered in CCR prior to July 30, 2012, this means:

- All information in CCR was transferred to SAM and available for viewing and updating on July 30, 2012;
- Vendors will not have to re-register in SAM if their CCR was active and valid on July 30, 2012, however,
  - They will have to set up a SAM user ID. Once this is done, the vendors will have access to all their information and may edit it as needed,
  - They may set up an ID when the SAM notifies them that it is time to renew registration.
- Vendors who attempted to access their information by going to the current CCR website on and after July 30, 2012, should have been automatically redirected to SAM.

For vendors who were not registered in CCR prior to July 30, 2012, this means:

- Vendors will need to obtain a DUNs number (see Part V. above) in order to register in SAM.
- Beginning on July 30, 2012, they must be directed to http://sam.gov to complete registration in SAM.
- The registration process via SAM has been changed for SAM, and is reported to be streamlined and much easier than the CCR process.

If yours is the acceptable price quote and you are selected for award, your organization's valid and active registration with SAM must be verifiable by SI staff administering this procurement prior to contract or purchase order award, and at the time any modifications or amendments to awards might be required.

VII. LEGISLATIVE AND/OR ADMINISTRATIVE REQUIREMENTS

A. Service Contract Act of 1965, as amended

If services to be performed are covered by the Service Contract Act (SCA), as amended, the SCA shall apply to all work performed under the contract, purchase order, or GSA schedule task order to be issued. Individuals and companies submitting quotes are encouraged to verify the wages and fringe benefits determined by the U.S.
Department of Labor to be payable for the Labor Category and in within the location that work performance will occur as cited in the Statement of Work. The SCA wages and fringe benefits payable shall be part of the order award.

Individuals and companies awarded a contract, purchase order or GSA schedule contract task order for SCA covered services are responsible, and required by law, to deliver to its employee(s) or post a notice of the required compensation in a prominent place at the worksite. The SCA provides authority to contracting agencies to withhold contract funds to reimburse underpaid employees, terminate the contract, hold the contractor liable for associated costs to the government, and debar from future government contracts for a period of three (3) years any persons or firms who have violated the SCA. The contracting officer awarding this order, or the Smithsonian Inspector General, may periodically require contractors to provide information that verifies compliance with the SCA for services provided under the awarded contracts, purchase orders or GSA schedule contract task orders.

B. **E-Verify**

If at award, or anytime during contract performance, the dollar amount of the contract award exceeds $150,000 or $5,000,000 under GSA Schedule, with a period of performance over 120 days, the successful bidder is required to register in the E-Verify System and verify that all individuals to be hired under the contract award are eligible for employment within the U.S. This requirement is not applicable to work that will be performed outside the U.S. or for Commercial Off the Shelf (COTS) items.

E-Verify is an Internet-based system operated by the Department of Homeland Security (DHS), U.S. Citizenship and Immigration Services (USCIS). It allows employers to verify the employment eligibility of their employees, regardless of citizenship. For more information on e-verify and when, why and how to register and use the system please go to the USCIS site on the World Wide Web at:

Contractor employees who require an SI Credential shall be required to undergo and pass an appropriate background investigation and complete security awareness training before an SI Credential is issued. Employees whose associations with the SI will be less than 30 days shall not receive a background investigation or SI...
Credential, however, they must be escorted by Credentialed personnel at all times when in staff-only areas of SI facilities. If relevant to this RFQ, a form OCon 520, Background Investigations and Credentials for Contractors’ Personnel, is included. The SI Contracting Officer’s Technical Representative (COTR) and successful vendor shall complete the following actions:

1. The COTR shall provide an OF-306, Declaration for Federal Employment form, for each of the Contractor’s employees who will be assigned to the SI for 30 days or longer. The OF-306 forms must be completed by each person and returned by the Contractor to the COTR, or other designated SI employee, within ten (10) workdays from receipt of the forms by the Contractor.

2. The COTR or other designated SI employee shall provide forms SF-87, Fingerprint Cards, to the Contractor. Each form SF-87 must be returned to the COTR, or other designated SI employee, within ten (10) workdays from receipt of the forms by the Contractor. The contractor shall provide the following support services to the National Museum of Natural History (NMNH) Biorepository:

1. Migrate the contents of specified NMNH freezers into the NMNH Biorepository freezers as assigned by the Biorepository Manager. This includes conducting physical inventories of samples and boxes, wrapping inventoried materials, and packing/unpacking of coolers. In addition, help with the transfer of specimen data from collecting units. Data can be in the form of full relational databases down to hand-written ledgers.

2. As necessary, operate, monitor, and assist users on key pieces of equipment (automated tube sorter, label machines, barcode scanners, RFID coding printers, biorepository software, etc.) and databases. Specifically, the contractor will query the NMNH KE EMu system and use the NMNH FreezerPro system. Training is available for both systems.

3. Work closely with the NMNH Biorepository to incorporate tissues, DNA extracts and all metadata into the new database as efficiently as possible, and to advise, based on experience, better workflows. In addition, help with the installation of small equipment in the Biorepository workroom and help store supplies and other materials.

4. Produce barcode labels and/or RFID tags for legacy samples and apply them to vials. As necessary, transfer materials from non-cryogenic vials to suitable vials or other packaging.

5. Assist with sub-sampling specimens for loans (intramural and extramural). This includes labeling tubes, generating pick lists, cutting samples, making preservative solutions, generating invoices, and trips to the shipping offices of MSC and NMNH.

6. As requested, check quality and/or concentration of DNA samples using spectrophotometers and other devices/methods.

7. Provide written reports, at least once per month, of inventory progress. These reports are to be in the form of Microsoft Excel spreadsheets.

8. Attend and participate in monthly Pan-Smithsonian Cryo-Initiative meetings, where the contractor will deliver a synopsis of inventory progress.

9. On-call for emergencies at least one week per month. During this on-call period, the contractor shall be the primary contact person for the Rees Scientific Centron and shall respond appropriately as needed to any emergency messages. Responses could include the need to come to the Biorepository and move collections from a failing freezer to a back-up freezer at any point in a 24 hour period. Therefore, personal transportation is a must. During this on call week the contractor is also responsible for an evening check of
conditions via Citrix/ReesWeb or phone and is to notify the Biorepository Manager of any anomalies immediately.

The Contractor shall be paid an hourly rate and may submit invoices on a monthly basis. This work is to be accomplished during normal working hours, 8 am to 6 pm, Monday-Friday, except Federal holidays or shutdown.

The SI reserves the right to inspect, test or evaluate any supplies or services that have been tendered for acceptance. The SI may require repair or replacement of nonconforming supplies or re-performances of nonconforming services at the Contractors expense. The SI must exercise its post acceptance rights- (1) Within a reasonable period of time after the defect was discovered or should have been discovered; and (2) Before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item. Inspection and acceptance will be at destination, unless otherwise provided in writing. Until delivery and acceptance, and after any rejections, risk of loss will be on the Contractor unless loss results from negligence of the SI. Final acceptance by the SI will be conditional upon fulfillment of the above requirements.

WARRANTY - The Contractor warrants and implies that the goods and services furnished hereunder are merchantable, fully conform to the SI’s specifications, drawings, designs, and are fit for intended use described in this contract. The Contractor agrees that the supplies or services furnished under this contract shall be covered by the most favorable commercial warranties the Contractor gives to all customers for such supplies or services, and that the rights and remedies provided herein are in addition to and do not limit any rights afforded to the Government by any other clause of this contract. Contractor agrees to pass through all warranties from other manufacturers.

6. TITLE - Unless otherwise specified in this contract, title to items furnished under this contract shall pass to the SI upon acceptance, regardless of when or where the SI takes physical possession.

7. EXCUSABLE DELAYS - The Contractor shall be liable for default unless nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence, such as acts of God or the public enemy, acts of the SI, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after the commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch, and shall promptly give written notice to the Contracting Officer of the cessation of such occurrence.

8. DISPUTES - Except as otherwise provided in this contract, any dispute concerning a question of fact arising under this contract which is not disposed of by agreement shall be decided by the Contracting Officer. All disputes must be submitted within 12 months after accrual of the claim to the Contracting Officer for a written decision. The Contracting Officer shall mail or otherwise furnish a copy thereof to the Contractor. This decision shall be final and conclusive, unless within 60 days from the date of receipt of such copy, the Contractor mails or otherwise furnishes to the Contracting Officer a written appeal addressed to the Secretary of the Smithsonian Institution. The decision of the Secretary or his duly authorized representative for the determination of such appeals shall be final and conclusive, unless determined to have been fraudulent, capricious or arbitrary, or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. The Contractor shall be afforded an opportunity to be heard and to offer evidence in support of his appeal. Pending final decision of a dispute hereunder, the Contractor shall proceed diligently with the performance of the contract and in accordance with the Contracting Officer's decision.

9. TERMINATION FOR CAUSE - The SI may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the SI, upon request, with adequate assurances of future performance. In the event of termination for cause, the SI shall not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the SI for any and all rights and remedies provided by law. If it is determined that the SI improperly terminated this contract for default, such termination shall be deemed a termination for convenience.
